

Plant Capacity list 2014:

Sheet Metal Work:

Amada EML punch / laser combination with tower loader.
Amada FO NT 4KW 4000x2000 laser with tower loader.
Amada FOII NT 4KW 3000x1500 laser.

Amada HFP 220 tonne break press.
Amada HFP 100 tonne break press x3.
Amada HD-ATC Hybrid press brake with automatic tool change.

ABB robotics welding cells x3.
Fronius CMT welding equipment.

Amada automatic tool grinder.
Prosaw and Behringer Automatic saws.
3 meter powered rolls.
Piranha metal working machinery.
Meritus Spot welder.
Pemsarter 2000 with auto loader.

CNC Precision Machining:

Bridgeport vertical machine centre x2.
Hardinge 5 Axis machining centre x2.
Biglia Smart Turn & Machining centre.
Hardinge bar fed lathes x2.
Doosan Puma 400 lathe with live tooling.
Sodick AQ535L Wire EDM eroder machine.

Inspection:

OGP smart scope.
Mitutoyo Crysta plus CMM.
Stiefelmayer with 2000x1000 bed size.
Trimos Digital height gauges.
Variety of digital micrometers, verniers, gauges and torque measuring equipment.

Other:

Dimensions SST1200es 3D printer.
Variety of finishing capabilities.
